 investor demand
- Subsequent to the bond issuance, CTP Group has repaid € 460 million of bank debt, increasing our unencumbered assets by €852 million

CTP's Group CEO, Remon Vos, said: "CTP reported solid results in the third quarter, with strong rental growth driving our increased recurring EBITDA. We continue to see positive momentum in our sector, benefitting from the ongoing growth in ecommerce, near-shoring of production and the associated optimization of supply chains with an increased focus on their resilience. We remain the partner of choice for many of our existing clients who we are serving in multiple locations across our region, with 75% of our new leases signed during Quarter 3 with existing tenants. The quality of our buildings and the excellent location of our parks also allows us to continue to attract new large international tenants to the CTPark Network. To date, the effects of the Covid pandemic and the government measures in response have only had a limited effect on our business; our construction activities have not been interrupted, we continue to conclude new leases with new and existing tenants and see strong rent collection. "

CTP's Group CFO, Richard Wilkinson, said: "Our business model has proven robust and continues to deliver solid results. This was confirmed as we obtained Investment Grade ratings from Moody's and S&P as part of our preparations to enter the European bond markets. In October, we were able to make our green bond debut, which was the largest debut bond by a real estate company in the CEE, thereby greatly strengthening our group funding capabilities. As part of plans to continue to diversify our funding sources and to raise additional capital to support our growth, we have commenced a strategic review of our options in the capital markets, including the possibility to raise equity by way of a joint venture or through an initial public offering."

Update on CTP B.V.'s € 650 million debut green bond issued on 1 October 2020

Since the date of issuance, CTP Group has prepaid € 460 million of secured bank loans. These loans were originally granted to finance over 60 properties, which are located in the Czech Republic, Slovakia, Hungary, Poland and Romania. These properties all benefit from a BREEAM certificate "Very Good" or "Excellent" or are in the final stages of being certified as such. The total book value of these properties as of 30 September 2020, amounted to € 852 million, thereby increasing the total value of unencumbered assets to € 1,142 million (30 June 2020: € 290 million).
