

## CTPark Bucharest West warehouse named best logistic building in Romania

*The high-performance 700-metre-long, 140 000 m<sup>2</sup> building will achieve carbon neutrality next year*

Bucharest, 4 December 2020 – CTP is honoured to have received the “Best Warehouse Development & Developer” award at the 2020 CIJ AWARDS Romania—the longest-running commercial property awards event in Romania, which took place this year on 3 December. The award represents recognition of CTP’s success story as a European developer on the Romanian market. In only five years, the company has become the leading premium industrial parks developer in the country, offering high-performance logistical solutions to its clients.

With a total area of 140,000 m<sup>2</sup>, CTP’s winning project, “Warehouse BUW17”, is the largest high-performance building in Romania. The new warehouse at CTPark Bucharest West is a one-piece building, 700 metres in length, with 140 docks and 15 drive-ins, thus delivering high performance for its users. Moreover, the building exceeds all energy efficiency and environmental standards in Romania, including full LED lighting and use of recycled grey water from the retention basin. Like all CTP buildings, the new warehouse is BREEAM certified. CTP’s investment in the project amounts to EUR 60 million.

**Ana Dumitrache, Country Manager, CTP Romania**, comments: *“It is a real honour to be credited by industry professionals for a project we pride ourselves on. CTPark Bucharest West is part of our initiative to help build a better future. The park has been designed to meet the highest standards of efficiency, comfort and sustainability to meet the needs of any company. This award strengthens our confidence in the sustainability of our projects, and we would like to thank our clients for making us their first option.”*

CTP entered the Romanian market in 2015 and soon after became an industry leader. The company currently owns and operates 15 successful logistical parks (CTParks) in Romania, with a gross leasable area of over 1,250,000 m<sup>2</sup> of Class A warehouses in 10 cities across the country. CTPark Bucharest West has strategic location on the country’s logistics map: adjacent to the A1 motorway 23 km from Bucharest, it offers more than 200,000 m<sup>2</sup> of leasable area to over 100 companies operating in the e-commerce and logistics fields. CTP owns a gross lettable area of 6 million m<sup>2</sup> at the European level and aims to extend the size of its portfolio to 10 million m<sup>2</sup> by 2023. As it expands, CTP’s goal is to achieve operational net-carbon neutrality by 2021 by
