

CTP strengthens leadership: Jakub Kodr becomes Managing Director for the Czech Republic

Amsterdam, 20 January 2025 - CTP, Europe's largest listed developer, owner, and manager of industrial and logistics properties by gross lettable area (GLA), has appointed Jakub Kodr as its new Managing Director for the Czech Republic. Jakub Kodr, who joined CTP more than seven years ago and previously was Head of Business Development, takes over the leadership of CTP in the Czech Republic as of January 2025.

Jakub Kodr started his career in real estate development at Cushman & Wakefield, where he gained valuable experience during his five-year tenure. He joined CTP in 2017 and since then has managed to complete hundreds of projects, obtain prestigious MRICS and MBA degrees and significantly develop his professional skills. He has always placed emphasis on building long-term relationships with clients, whom he tries to meet in person as often as possible.

In his new role as Managing Director, he will focus on further expansion, strengthening relationships with clients, key partners and implementing the company's ambitious plans across the country. CTP currently owns and manages 57 CTParks in the Czech Republic with a total area of nearly 4.5 million sqm, used by more than 600 clients across a variety of sectors. The company's assets are worth nearly €7 billion, confirming its market-leading position.

"I very much appreciate the trust that the management has placed in me. It is an honour to manage the largest industrial developer in the Czech Republic, whose influence extends far beyond the real estate market - we are building spaces that are driving innovation, production and logistics, thus supporting the growth not only of our tenants, but of the entire economy. The Czech market is dynamic and full of opportunities, and I look forward to working with our team to push the boundaries of what is possible in our industry," said Jakub Kodr on the promotion.
